 - A) Ward Plan –
 - a. The county board passed its supervisory district plan. Red River will have 4 voting wards for the next 10 years. This is due to the fact that the populations in the supervisory districts to your east and to your south were too low, and the county had to pull people from your township to get the deviations for those supervisory districts within the allowable range. Each of the areas that the county pulled from in your township now becomes a voting ward. The population of the remaining area in your township was more than 1,000 people so this area had to be split into two wards, too. The end result is that your township has 4 voting wards.
 - b. Town board needs to pass a resolution adopting new ward plan

 - C) Board of Adjustments need new alternate member – any updates or responses?
